Career Summary

With over 15 years of expertise in compliance management, risk assurance, fraud prevention, team leadership, seamless operations coordination, and product management, I have a proven track record of designing and executing impactful programs that deliver substantial cost savings and risk mitigation. I excel in devising and implementing strategies that ensure compliance while enhancing operational efficiency. My commitment to refining processes and achieving organizational goals positions me as a dedicated asset in optimizing business objectives.

Work Experience

Group Fraud Prevention Manager – Airtel Africa PLC, Nairobi, Kenya

January 2019 to Present

Achievements

- Achieved USD10M+ savings in 3 years via Simbox fraud prevention.
- Designed controls for new risks, ensured compliance with mitigation measures.
- Tracked and implemented 200+ learnings, lessons, and observations from audit findings and fraud incidents across 14 operating countries in Africa.
- Refined and optimized management processes for 30,000+ roaming test SIMs, improving overall efficiency and control.
- Managed and coached 14 fraud analysts.

ECommerce Consultant – Self Employed, Nairobi, Kenya

June 2018 – December 2018

Achievements

- Assisted upcoming eCommerce company in launching an online marketplace.
- Led the vendor selection process and evaluated 5+ vendors.
- Developed business processes, training manuals, fraud prevention policies, and designed reports from scratch.
- Created business processes, manuals, fraud prevention policies, reports.
- Managed integrations with payment processing (MPesa, PesaPal) and logistics (Sendy) providers.
- Conducted thorough platform testing before client handover.

Head Revenue Assurance – Konga Online Shopping Limited, Lagos, Nigeria

December 2014 – December 2017

Achievements

- Oversaw risk assurance, fraud prevention, and trust/safety function for a USD15M+ monthly GMV business.
- Maintained 100% on-target tracking for 20,000+ order items shipped in and out daily from 300+ last-mile locations across Nigeria.
- Cleaned up USD2M+ wrongly filled claim items on the insurance portal, resulting in disciplinary actions for 100+ staff.
- Designed and deployed 10+ automated fraud prevention rules/queries, reducing reconciliation variance for Pay on Delivery orders by 40% in 3 months.
- Developed 8 new business processes and re-engineered 3 key business processes (i.e., payouts, refunds, returns) thus improving efficiency and reducing costs.
- Managed, mentored, and coached a team of 6 direct staff and 20+ floor audit teams.

Fraud Administrator, Mobile Money Project – Glo Mobile Limited, Lagos, Nigeria

July 2009 – November 2014

Achievements

- Played a key role in the development of mobile money platform features from scratch and the creation of regulated financial products.
- Led use case testing, collaborated with engineers for bug resolution.
- Produced critical documentation: risk register, business process flows, SOPs, and policy guidelines, aiding Central Bank approval for payment license.
- Evaluated mobile money operator propositions, securing access to USSD Gateways and STK menu.
- Trained 800+ Finance and Customer Care staff on product risks.
- Oversaw Mobile Money Agents recruitment in 10+ Nigerian cities, enrolling 3,000+ agents.
- Initiated anti-scam campaign, blocking 30+ sites, blacklisting 10,000+ fraudsters.
- Managed and coached a team of 5 fraud analysts.

Risk and Fraud Analyst – Airtel Kenya Limited, Nairobi, Kenya

November 2005 – March 2009

Achievements

- Saved over USD2.5M by proactively blocking Simbox fraud numbers.
- Ensured prompt weekly reconciliation of Airtel Money bank and float allocations.
- Achieved 100% accurate and timely calculation, validation, and reporting of distributor monthly remuneration.
- Achieved a turnaround time of fewer than 48 hours in attending and responding to security agencies data requests.
- Prevented abuse of test SIMs, saving USD200K+ by deactivating 4K+ unauthorized test SIMs and implementing test SIMs policy and process.
