WORK EXPERIENCE

Trader Middle Distillates

Dec 2020 - Jun 2022

TUPRAS TRADING LTD - London

- Physical: Responsible for the Middle Distillates portfolio (Jet, Diesel, Gasoil). Traded and optimised Tuptas 4 Turkish refineries import/export volumes. Mandated to expand the book from the Mediterranean region to a wider coverage.
- Derivatives: Hedged & maximised physical trades (swaps, futures, FFA)

Trader Middle Distillates

Aug 2017 - Aug 2020

MENA ENERGY - Dubai & Geneva

- Physical (Jet, Diesel, Gasoil): Developed and implemented short, medium and long-term trading strategies based on market conditions, trends, structure, supply and demand imbalances, arbitration (geographical, time, shipping), blending. Supplied the company networks in the UAE, Spain and Africa. Traded positions in Europe, the Mediterranean region, the AG and Africa.
- Derivatives: Hedged, optimised physical trades and proprietary traded using various instruments such as swaps differentials, time spreads, futures, East/West, regrade, FFA.

Trader Middle Distillates

Apr 2010 - Jun 2017

SOCAR TRADING - Geneva & Dubai

- Physical trading of Jet, Diesel and Gasoil: played an active role in the implementation and growth of a middle distillates book for the company covering the Mediterranean area, the AG and Africa. Developed short to long-term trading strategies, identified and executed arbitrage opportunities, participated in spot and term tenders, built and expanded third party trades. Marketed Gasoil and Fuel Oil produced by the Socar refineries from Azerbaijan.
- Traded Jet, Diesel and Gasoil derivative instruments for hedging and speculative purposes: swaps, futures, time spreads, East/West, regrade, FFA.
- Managed floating storage in Black Sea and shore storage facilities in AG, East Africa, West Africa and Turkey, with inland sales/trading in Turkey and East Africa.
- Participated in building and development of the Fuel Oil and Gasoline trading books for the company before the creation of separate desks.

Junior Trader Oil Products

Jan 2007 - Mar 2010

ADDAX TRADING SA - Geneva

- Acquired essential knowledge on physical and derivatives oil trading, economics calculation, contract negotiation and shipping logistics with being trained by the 'Derivative desk' followed by the 'Caspian desk' (physical) during my first year.

Was then promoted to a full-time trader position on the 'East of Suez (EOS)' desk. Managed the book alone (initially 3 traders were in charge), supervised by the head of desk.

- Managed all physical supplies to Addax affiliates and to third parties in East Africa for Jet, Gasoil, Gasoline, Fuel Oil, LPG, Base Oil. Sourced products from the Mediterranean, the AG/WCI and the Far East regions. Was involved in inland sales/trading from Tanzania, Kenya and Mozambique to neighbouring countries. Supervised shore storage in Tanzania and Mozambique.

- Executed paper hedging for the desk using futures, swaps, time spreads, East/West, which involved putting in place protection for new physical positions, adjusting cargo pricing, taking advantage of optionality such as quantity min/max and slip-month pricing.

- Chartered vessels: identified chartering opportunities, connected with shipbrokers, negotiated price and commercial terms.

- Oversaw the EOS book for four months following departure of the Head of Desk: supervised 1 junior trader and 2 operators.

Operator Oil Products

Mar 2005 - Dec 2006

LITASCO SA - Geneva

- Trading and shipping operator for clean and dirty products: average of 25 vessels operated per month in addition to some inland train transfer.

- Daily activities included quality/quantity control, coordination with suppliers / receivers, credit control, contracts review, stock management, handling of claims /disputes, handling of vessel's logistics, interpretation of charter party terms and conditions, laytime and demurrage calculation.

Middle Officer / Operator Oil Products

Dec 2001 - Feb 2005

TOTAL TRADING - Geneva & Paris

- Risk management (Physical and price exposures), P&L calculation, reporting to Management.

- Moved from the risk desk to become a trading cargo operator in charge of NWE and the Mediterranean area for large LPG carriers and coasters.

- In addition to operations, was promoted to marketer for all the LPG deliveries to Morocco and under the supervision of the head of desk as back up of the LPG coaster trader when on leave.

- Transferred to the WAF product desk in Paris to operate various products: Gasoil, Jet, Gasoline, Fuel Oil, Bitumen.
