E-mail: rajamehtabahmed@gmail.com

Address: Township, Mansehra. Pakistan.

Career Summary:

Majored in Well Engineering from **University of Leoben, Austria** through **OMV Excellence Master Scholarship** program. Having diverse experience within Well Engineering domains of mid-level career (Drilling, completions, workovers), I aspire to join the team of an organization, where opportunities are more to grow and excel for the accomplishment of mutual goals and excellence.

WORK EXPERIENCE

1. Drilling & Completions Engineer

April 2019 to Present

UEPL (Formerly British Petroleum Pakistan).

- Responsible for well design, planning, monitoring and provision of technical support for daily drilling & workover operations.
- Writing programs and assisting team leads in planning wells as per well design criteria, using latest industrial tools like **EDM suite**.
- While focusing on well integrity & **HSEQ**, **identifying any risks and their assessments for safe** and efficient operations along with tracking daily costs.
- In communication with subsurface team and Team leads for future well planning, cost estimations/AFE preparation, material selections & orders.
- Engagement in SQM (Service quality meetings) quarterly and performances check through 4P Audits (People, Process, Plant & Performance) annually for contractors. **(3Ps are more focused towards HSEQ management and compliance while performance is operational based).**
- Have planned and executed workover & well intervention operations for 1.5 year thus having hands on experience in the domain both with rig & rigless.
- **Got SRAs** (Spot recognition awards) for efficient performances. (AFE cost savings/**HSEQ management & compliances especially in COVID-19**).
- Well Closeouts and after-action reviews as per WEMS GATE process.
- Supervised on-site executions, **ensuring HSEQ compliances** along with operational efficiency and successful well delivery as per plan, contingencies & business needs.
- Daily reporting & follow ups on material/resources ensuring smooth operations at site.
- **Lead the field HSE team** while site/camp audits, hazard hunts, drills, daily inspections, LLD sharing & followed up on NCRs, **near misses & incident reporting ensuring wellbeing of every individual & safe operation**.
- Considering **HSE as business-critical activity**, ensured **HSE TNA (Training needs Analysis)** compliance for field crew and HSE field representative himself.

2. Junior Drilling and Completion Engineer

2017 to 2019 (Office/Filed based)

OMV AG (European Based multinational company)

While office and Rig based; Provided support and assistance to well engineering team by completing assigned tasks to run and grow daily drilling and completion business.

- Assisting in preparation of job programs (Drilling/Completions & well Testing/Workovers) using advanced industrial tools like EDM suite.
- Preparation of EOJ/FWR emphasizing on NPT analysis of drilling and completions operations, **HSEQ compliance**, operational difficulties & NCRs.

- Capturing lesson learnt and documenting after-action reviews to identify best practices from daily operations and weekly contractor's meetings.
- Worked as a well site Drilling and Completion Engineer for 06 months.
- **Worked as field HSE coordinator on 06 months.**
- Well close outs and invoice clearance against POs using SAP.

3. Trainee Drilling Engineer

2016 to 2017 (Filed based)

OMV AG (European Based multinational company)

Graduate Trainee Engineer as part of the Rig based Drilling and Completion execution team.

- Worked with **SLR** (Schlumberger Land Rigs) as **Rig Hands (roustabout to driller)** for eight months.
- Assisted well site supervisors in resource management, **site HSEQ management through audits/Hazard Hunts** & daily town reporting.
- Material callouts and follow up on vendors for services mobilizations as per operational timelines.

4. Internships:

OGDCL, OMV, Weatherford.

(8 Months)

PROFESSIONAL TRAININGS/CERTIFICATIONS

- **IWCF, Level-4**, Twice on merit
2018; Sparks Petroleum services, **Oman**
2019; Aberdeen Drilling School, **Pakistan**
- Landmark (**EDM**) by Halliburton, all modules.
- **ModuSpec** Rig Inspection
- **SAP, Maximo, IDS, MS OFFICE**
- **HP/HT** Well Planning by Entrac Petroleum, UK.
- **HP/HT** Shale Drilling by OAG Energy
- Drill String Design by **NEXT**, Schlumberger
- **Enhanced well interventions** by NextWells Corp.
- **Advanced Well Completion and Operations** by Haward Technology Middle East.
- Drilling Problems /Fishing/ Workover operations (**IHRDC**).
- Well Construction and Drilling optimization (**IHRDC**).
- Completed 2-year International Petroleum Academy mentoring program by **OMV, Vienna**.

HSE Trainings & Certifications:

- **New Employee safety Training (NEST)** by Schlumberger.
- Fire Fighting
- Basic First Aid.
- Incident Investigation & reporting Level-2.
- **PTW** (Permit to Work)
- **HITRA** team lead.
- **SOs & SOC**s.
- Confined Space Entry. Line of fire. Work at Height.
- **H₂S** Level-2
- Rigging & Lifting Level 02.
- **KMI** HSE management software.

QUALIFICATION		
<i>Testimonial</i>	<i>Session</i>	<i>Institution</i>
<i>Dipl.-Ing. Petroleum & Gas Engineering MSc, Major: Drilling Engineering</i>	<i>2014-2016</i>	<i>Montanuniversität Leoben, Austria.</i>
<i>BSc (Petroleum & Gas Engineering)</i>	<i>2009-2013</i>	<i>BUIITEMS Quetta, Pakistan.</i>
ACADEMIC ACHIEVEMENTS		
○ Participated and presented in various international conferences through platform of Social and Professional organizations including SPE, EAGE - IPTC Beijing, ATCs Pakistan/UAE, EAGE Vienna, Manager20 Croatia. ○ OMV Excellence Master Scholarship Holder, Vienna-2014. ○ Served as General Secretary/ President of SPE Student Chapter for session 2012-2013. ○ Served as Physics Teacher, 2010. ○ Student of the year award winner 2007/2009. ○ International student award MSc; 2015, Vienna.		
ACADEMIC PROJECTS AND PUBLICATIONS		
○ MSc Thesis: “Application of dual Lateral Technology on Sawan Gas field of Pakistan” In collaboration with Drilling Department, OMV Co-supervised by Multilateral solutions UK ○ “Increasing the profits and production of mature fields through optimized Jet pump design and operational considerations – A case study”. SPE Paper # 169644-(MS OnePetro), ATC 2013. ○ Field Development Project (Barnett Shale’s, USA) at University of Leoben, 2015. ○ Effect of wellbore geometry on well cementing. EU Journal paper, 2015. ○ Is the Oil and Gas Adequately Managing HSE Risk? 6th IPTC Beijing, China.		
LINGUISTIC SKILLS		
<i>Language</i>	<i>Proficiency level</i>	
1. English	Full Professional	
2. Urdu	Native	
3. Arabic	Elementary / Learner	
4. German	Elementary (A1)
