DOB: 23rd Feb 1987 | **Permanent Address:** Brindavan (H), Parippayi, Chengalayi PO, Kannur, Kerala, India

SUMMARY

- **14 Years of Expertise:** Extensive logistics and operational experience in oil & gas companies across India and Africa.
- **Rapid Profit Generation:** Onboarded customers with high-margin routes, diversified to transport LPG, HFO, and Jet-A1, driving company profitability within 1.5 years.
- **Large-Scale Operations Management:** Efficiently managed 200+ truck operations, delivering 250KT of product annually through primary and secondary transportation, achieving 10-15% cost optimization
- **Advanced Systems Implementation:** Proficient in SAP, TMS, ERP, Excel, Power BI, optimization, and routing software.
- **Top Performer Recognition:** Awarded 1 million INR worth of company shares for outstanding performance in the Totalenergies LPG division.
- **Goal-Oriented Professional:** Highly motivated and ready for new challenges in logistics management.

WORK EXPERIENCE

Logistics & Operations Manager | Amani Transporters & Logistics Ltd | Nairobi, Kenya Apr2022 -Present

- Currently administering logistics operations within the Pacific Group of companies with 50 owned trucks and 150+ 3P subcontracted trucks across Kenya, South Sudan, Uganda, Tanzania, and DRC (both export and local).
- Budgeting for the Operations department including procurement of new fleets based on in-depth analysis of profitability with other departments. Successfully added 25 trucks in the last two years which are greatly contributing to the company's bottom line.
- Prepared and implemented SOPs for all areas under Logistics including Driver recruitment, Truck Maintenance, Compliance tracking, Operations, and Safety.
- Adeptly determine staffing levels, and job descriptions, and assist in the recruitment of drivers and support staff.
- Optimize and reduce operational expenses while maximizing equipment utilization. Review and report logistics/fleet performance to Management. Have fitted trucks with fuel sensors for close monitoring of fuel consumption reducing the fuel requirements by 5%.
- Full responsibility for fleet maintenance and the mechanical workshops. Measuring the time spent on preventive maintenance and checks, thereby ensuring continuous availability of trucks.
- Manage the day-to-day transportation operations of the company; supervise employees, delegating tasks, accordingly, monitoring performance, and conducting regular follow-ups with business objectives

Senior Manager Logistics | Total Energies India Pvt Ltd | Bangalore, India Oct 2020 –Apr 2022

- Proficiently managed procurement and distribution of 200KT of LPG/propane per annum with 200+ contracted trucks, including vessel nominations with an in-house trading arm.
- Adeptly managed Primary and secondary distribution to 50+ LPG bulk customers, 30+ ALDS stations, and 200+ Packed LPG distributors spread across India.
- Incessantly monitoring key Transport KPIs relating to Freight cost MT and KM, Fuel price fluctuations, and truck utilization to Higher management.
- Constant innovations in safety based on inputs on onboard computers and driver monitoring avoiding any major accidents and loss of reputation for the company.
- Implemented Transport Management System (TMS) with routing software. SAP automated freight payment module launched. India's first remote-operated IEFCV for LPG trucks. Power BI dashboard for daily reporting.

- Achieved a 15% reduction in logistics costs, ensured 100% effective transport contract execution, and processed \$10M in freight per annum with automated payments

Team Lead Logistics | Reliance Petro marketing Pvt LTD | *Mumbai, India*

Aug 2018 –Oct 2020

- **Nationwide Operations:** Managed pan-India logistics operations for Bulk LPG, safely transporting 125KT of product annually.
- **Fleet Optimization:** Analyzed and maintained optimal fleet size as per sales plan and inventory price fluctuations, reducing inventory carrying costs.
- **Cost Savings:** Achieved 40M INR annual savings in transport costs for bulk movements.
- **Project Leadership:** Spearheaded a project to redesign the secondary distribution of packed LPG using AI-based software thereby saving 1M INR annual savings by redesigning secondary distribution.
