

Mathilde Roblot

Data Scientist

Highly motivated with over 3 years of experience in Data Science and Urban Planning, looking for a meaningful role to find creative solutions to exciting problems and have a real-life impact. Experienced at making geospatial and other data useable, using machine learning algorithms to deliver insights and implement action-oriented solutions.

DETAILS

Helsinki, Finland

(+33) 6 40 32 80 65

mathilderoblot4@gmail.com

mathilde-robLOT

SKILLS

Programming Languages

Python (Pandas, NumPy, SciPy, SciKit-Learn), R, SQL

Machine Learning Tools

TensorFlow, Keras, PyTorch, SciKit-Learn, LightGBM

Cloud & Version Control System

AWS, Bitbucket, GIT

Data Visualization & BI Tools

Tableau, Power BI, Dash

Geographic Information Systems

ArcGIS, MapBox, PostGIS

LANGUAGES

French

Mother tongue

English

Fluent C1 - IELTS 7.0

German

Intermediate Level B1

INTERESTS

Running (6 half marathons)

Crafts / Sewing

Architecture

Itinerant trips

WORK EXPERIENCE

Data Scientist

nov 2021 - present

Skenariolabs, Helsinki, Finland

- Develop real estate valuation and energy label predictive models for multiple countries in a ESG-risks analytics approach
- Establish end-to-end data pipelines, from data extraction to model deployment, utilizing Bitbucket and AWS
- Communicate analysis results and provide actionable recommendations to the clients

Urban Data Scientist Intern

feb 2021 - aug 2021

EP, Nantes, France

- Identified & implemented opportunities for using data from multiple urban sources
- Constructed predictive models related to real estate and urban regulations using ArcGIS.
- Developed a new application for real estate prospecting using PostGIS and MapBox

Research Intern

sep 2019 - feb 2020

Polytechnique Montréal, Montréal, Canada

- Conducted in-depth research and analysis to comprehend and predict carsharing membership trends in Montreal.

EDUCATION

Master of Science In Data Science

2020 - 2021

Université de Technologie de Compiègne, Compiègne, France

Key Subjects : Data mining - Machine et deep learning - Decision theory - Robust and stochastic optimization - Multi-criteria decision under uncertainties - In-depth mathematics

Master's Degree in Urban Engineering

2016 - 2021

Université de Technologie de Compiègne, Compiègne, France

Key Subjects : Technical management with social and legal dimensions of buildings - Town planning and development- Modeling and construction - Network optimization

Minor : International economics - micro- and macroeconomic, accounting, international organizations and business strategy

Exchange semester in Master of Urban Spatial Planning

2018

Technische Universität Dortmund, Dortmund, Germany

PUBLICATION

Peer-Reviewed Journal

Roblot, M., Boisjoly, G., Francesco, C., & Martin, T. (2021). *Participation in Shared Mobility: An Analysis of the Influence of Walking and Public Transport Accessibility to Vehicles on Carsharing Membership in Montreal, Canada*. Transportation Research Record, 03611981211032221.

Presentation

Roblot, M., Boisjoly, G., Francesco, C., & Martin, T. *Vehicles on Carsharing Membership in Montreal, Canada*. Poster presented at: TRB Annual Meeting; January 2021; Washington, United States

Roblot M. *Accessibilité à la mobilité partagée : une analyse des modalités d'urbanisme déterminant l'adhésion au service d'autopartage*. Poster presented at: RFTM; June 2021; Paris, France
